

Blueprint for Academic Excellence in the University of South Carolina School of Medicine (SOM)

2015-2016

6 April 2015

Section I. <u>Executive Summary</u>

School of Medicine Contributions to Meeting the Academic Dashboard Targets

Since it only enrolls post-baccalaureate students, many of the University Academic Dashboard targets are inapplicable to the School of Medicine. The School of Medicine (SOM) uses the following items for its Dashboard (Appendix G).

- **1. MCAT score** The SOM median MCAT score for accepted applicants held steady at 29 compared to its peers (29) and its aspirants (33).
- 2. Percentage of Graduates Choosing Primary Care Specialties (Family Medicine, Internal Medicine, Pediatrics) The percentage of SOM graduates choosing primary care specialties (46%) increased this year to surpass its peers (43%). This percentage also remains higher than its aspirants (37%).
- **3. Percentage of Graduates Practicing in Primary Care and Practicing In-state** The SOM ranks in the 95th percentile nationally for percent of graduates practicing in primary care and ranks in the 88th percentile nationally for percent of graduates practicing in-state.
- 4. United States Medical Licensing Examination (USMLE) Step 2 Clinical Knowledge First Time Percent Pass Rate The 96% first time pass rate of SOM graduates exceeded the national average this year of 95%.
- **5. Research Awards** SOM extramural funding awards increased to \$50.4 million with federal research funding at ~\$30.5 million and over 35% of the federal funding being from NIH awards.

School of Medicine Contributions to Key Performance Parameters

Teaching Excellence – The SOM collaborated with other health sciences schools to expand interprofessional education by adding Genetic Counseling students, continued to be a leader in ultrasound education, completed strategic planning for curriculum innovation, and partnered with South Carolina Honors College to create a seven-year accelerated medical degree program.

Research/scholarship reputation and productivity - The SOM has fostered research collaborations and interdisciplinary research resulting in extramural funding increasing to over \$50M, and expanded its research in telemedicine, stroke, health disparities, and personalized medicine. The SOM is nearing completion of a search for a new Associate Dean for Research who will oversee basic science research and growth of translational and clinical research as the Palmetto Health-USC Medical Group is formed.

Service to state, community, profession and university- The SOM has provided exceptional clinical care to patients in the community, opened a state-of-the-art orthopaedic and sports medicine clinic at Baptist Parkridge Hospital, initiated the CenteringPregnancy program, and formed partnerships with Francis Marion University, McLeod Regional Medical Center, and Carolinas Health System to establish medical student clinical rotations in Florence for the regional campus.

Sustainability – The SOM established a stronger financial base through the Palmetto Health-USC Medical Group, new clinical affiliations with hospitals, and stronger communication with Dorn VA.

Section II. <u>Meeting the University's Academic Dashboard Targets</u>

School of Medicine Contributions to Meeting the Academic Dashboard Targets

Since it only enrolls post-baccalaureate students, many of the University Academic Dashboard targets are inapplicable to the School of Medicine. The School of Medicine uses the following items for its Dashboard (Appendix G).

- **1. MCAT score** The School of Medicine median MCAT score for accepted applicants held steady at 29 compared to its peers (29) and its aspirants (33).
- **2015-16 Strategy** Optimize student recruitment strategies including a more personal approach to the admissions process and emphasis on the uniqueness of our ultrasound program and the Florence option. Increase SOM endowment to provide additional tuition scholarships for academically gifted and underrepresented minority students.
- 2. Percentage of Graduates Choosing Primary Care Specialties (Family Medicine, Internal Medicine, Pediatrics) The percentage of School of Medicine graduates choosing primary care specialties (46%) increased this year to surpass its peers (43%). This percentage also remains higher than its aspirants (37%).
- **2015-16 Strategy** Maintain commitment to current rural primary care training sites and seek additional sites which provide students with first-hand experience in rural practice. Continue inclusion of Primary Care Week in curriculum. Encourage faculty participation in the Institute for Primary Care Education and Practice, an initiative from the South Carolina Area Health Education Consortium. Implement third year medical student rotations in Florence with a focus on primary care.
- **3. Percentage of Graduates Practicing in Primary Care and Practicing In-state** The School of Medicine ranks in the 95th percentile nationally for percent of graduates practicing in primary care and ranks in the 88th percentile nationally for percent of graduates practicing in-state.
- 2015-16 Strategy Maintain commitment to rural primary care training sites which provide students with first-hand experience in rural practice. Continue inclusion of Primary Care Week in curriculum. Encourage faculty participation in the Institute for Primary Care Education and Practice, an initiative from the South Carolina Area Health Education Consortium. Introduce third year medical students to rural practice environments through their clinical rotations in Florence and potentially other rural practice sites in South Carolina. The leadership/community institute in Florence program will emphasize the joys, benefits, positives of practicing in rural areas.
- **4.** United States Medical Licensing Examination (USMLE) Step 2 Clinical Knowledge First Time Percent Pass Rate and Mean Score The 96% first time pass rate of School of Medicine graduates exceeded the national average of 95%.
- **2015-16 Strategy** Will continue to provide multiple opportunities for formative evaluation of clinical knowledge through the use of internal and end of clerkship subject exams plus the provision

of a low teaching faculty-student ratio. Time will be provided in the fourth year schedule to allow students adequate preparation for the exam.

5. Research Awards – School of Medicine extramural funding awards increased to a total of over \$50.4 million with federal research funding (NIH, NSF, HHS) at \$30.5 million and over 35% of federal funding coming from NIH awards.

2015-16 Strategy – Secure a joint leadership appointment of the new Associate Dean for Research within Palmetto Health System, promoting synergy in translational and clinical research programs. Expand and enhance research infrastructure by completing renovation of Building One research space and SOM animal resource facility, plus leasing research space from VA. Promote research collaborations with VA Medical Center by seeking additional VA eligibility for SOM faculty and negotiating an agreement with the VA for sharing newly renovated VA research space, sharing equipment, and creating a research center of combined research strengths of SOM and the VAMC.

Section III. School of Medicine Goals and their Contribution to the University's Key Performance Parameters

2015-2016 Academic Year Goals

Goal 1. Operationalize Palmetto Health-USC Medical Group.

Key Performance Parameters: Service to State, Community, Profession, and University; Sustainability

Progress: New goal

Plans for Upcoming Year: Executive Dean/CEO of Medical Group hired, arriving at USC on February 1, 2015. The Advisory Board Group engaged to provide interim senior management to work with new CEO. As of February, 2015, an interim COO, CFO, and Director of Operations on site. Medical Group granted tax-exempt status by IRS in late 2015. Establish departmental structures and identify departmental leaders; formalize mission, vision and values; address operational issues such as human resources, information technology, and compensation; finalize other Palmetto Health-USC Medical Group key leadership roles.

Goal 2: Begin a year-long self-study process prior to the LCME accreditation site visit scheduled during the 2016-2017 academic year.

Key Performance Parameters: Teaching Excellence

Progress: New goal

Plans for the Upcoming Year: The Dean has charged a task force to conduct a preliminary survey of the new LCME standards to identify areas of potential noncompliance and make recommendations for changes in order to meet the standards. By late summer the one-year self-study process will begin with participation and input from faculty, students, staff, and our clinical partners.

Goal 4. Foster research and promote collaborations and interdisciplinary research.

Key Performance Indicators: Research Scholarship, Reputation and Productivity

Progress: SOM funded ten innovative and exploratory grant applications or bridge funds totaling over \$200,000 last year through the Research Development Fund. These investigators have submitted twelve grant applications to federal agencies (NIH, VA) or foundations, and four investigators have received funding including two new NIH awards to begin in 2015 and another one pending final funding decision (and under a 10th percentile).

VA-eligible SOM faculty submitted several VA Merit Award applications, and SOM faculty now have five funded VA Merit Awards. In addition, SOM faculty with VA

awards have spearheaded two more funded large equipment grants through VA funding mechanisms. This is a truly joint SOM-VA effort since the VA-purchased equipment is housed in SOM space leased from the VA and the SOM Instrumentation Resource Facility (IRF) provides direct oversight of the equipment. Additional VA laboratory space is now being utilized by SOM faculty, including IRF staff, through a leasing arrangement.

Plans for Upcoming Year: Secure a joint leadership appointment of the new Associate Dean for Research within Palmetto Health System, promoting synergy in translational and clinical research programs. Continue renovation of Building One research space and Animal Resource Facilities at SOM. Promote research collaborations and enable additional VA eligibility for SOM faculty and establish a joint research program in a thematic area that will be based in newly renovated VA research space. Explore opportunities for enhanced research collaborations with Palmetto Health System, USC SOM-Greenville, Carolinas Health and McLeod Health Systems in Florence, and Grand Strand Health System in Myrtle Beach. Continue SOM-wide peer review of applications to enhance funding success. Unfortunately, due to reduced IDC returns from existing awards (due to decreased in the NIH IDC rate to 33.5%), there will be no Research Development funds this year to help support emerging projects.

Goal 5. Increase the School of Medicine endowment to provide full tuition scholarships for underrepresented minority and academically gifted students.

Key Performance Parameters: Service to state, community, profession and university; Sustainability

Progress: Dean identified additional funds for scholarships for students going to Florence clinical training site. USC Development and Alumni Relations established contacts with School of Medicine alumni and other donors.

Plans for Upcoming Year: Work with USC Development and Alumni Relations to hire a development officer for School of Medicine.

Five-Year Goals

Goal 1. Pursue new clinical opportunities that align service, education, and research.

Key Performance Parameters: Service to State, Community, Profession, and University; Sustainability

Operationalize Palmetto Health-USC Medical Group. Work to establish and expand clinical service agreements with other healthcare systems in the state in rural and metropolitan areas. Signed affiliation agreements with Providence, Grand Strand, significant potential with Tuomey Health System.

Goal 2. Establish a Master's in Physician Assistant Program

Key Performance Parameters: Teaching Excellence; Service to State, Community, Profession, and University; Sustainability

Plan to establish a Master's in Physician Assistant program with a target date of winter of 2017 for the first entering class. In 2015, a working group will develop curriculum and submit new program approval documents to the graduate school and program planning documents to the Board of Trustees and Commission on Higher Education. A program director should be hired by summer of 2015 for submission of initial documents for accreditation by the end of 2015. Accreditation site visit is scheduled for February 2016.

Goal 3. Develop a progressive interdisciplinary research agenda as part of SOM Strategic Plan.

Key Performance Parameters: Research/Scholarship Reputation and Productivity; Service to State, Community, Profession, and University

SOM faculty will continue to collaborate with researchers across the university, the state, the nation, and globally in targeted areas of strength, such as inflammation, stroke, heart disease, regenerative medicine, neuropsychiatric diseases, technology in medicine, and health care delivery. The new Associate Dean for Research will be tasked with better integration of research and IRB issues with Palmetto Health. Faculty will actively pursue integrated, large funding opportunities such as COBRE, EPSCoR, and USAID.

Goal 4: Continue to develop the clinical branch campus in Florence.

Key Performance Parameters: Teaching Excellence; Service to State, Community, Profession, and University

With the approval of LCME/CHE/SACS, the SOM will continue to move forward with the development of the clinical branch campus in Florence. This will include placing 12-15 students per year in Florence for their third and fourth year rotations and building strong community relationships. Additional part-time faculty and staff have been hired in the Office of Medical Student Education-Florence, and faculty development will continue with our clinical partners.

Section IV. <u>Appendices</u>

Appendix A. Resources Needed

Goal 1 - Foster research	arch and promo	ote collaborations	and interdisciplinary research.
Type of Resource	Existing	Additional:	Strategy
	_	State source	
Fiscal	E-funds	VP Research	Provide researchers with bridge and seed
		Provost	funding to catalyze proposals. Continue
			peer review sessions across campus.
			Develop COBRE proposals with units on

Appendix B. Benchmarking Information

- 5 Aspirant Institutions (*Public Medical Schools in the South*): Medical College of Georgia at Georgia Regents University, University of Kentucky, University of North Carolina Chapel Hill, University of Tennessee Health Science Center, University of Virginia
- 5 Peer Institutions (*Teague-Cranston Act Medical Schools*): East Carolina University, East Tennessee State University, Marshall University, Texas A&M University, Wright State University

Appendix C. School of Medicine's Top Strengths and Important Accomplishments

<u>Strengths</u>

- Strong, fully-accredited educational programs.
- Largest physician and provider practice in the Midlands.
- Unique clinical services provider for Midlands in infectious diseases, pediatrics, and neurology.
- Faculty who are dedicated and committed to the educational programs.
- Global leader in ultrasound undergraduate medical education.
- University of South Carolina School of Medicine Educational Trust dba University Specialty Clinics continues to explore opportunities with key healthcare education partners to integrate or collaborate in order to provide resources for a more secure and stable teaching and financial environment.

Important Accomplishments

- Collaborated with Palmetto Health to establish the Palmetto Health-USC Medical Group, a physician-led, multidisciplinary organization.
- Successfully completed search for CEO of the Palmetto Health-USC Medical Group and Executive Dean of the School of Medicine with appointment of Dr. Les Hall.
- Partnered with Francis Marion University, Carolinas Hospital System and McLeod Regional Medical Center to establish a clinical training site in Florence. William H. Hester, M.D., was appointed as assistant dean for medical student education-Florence.
- Completed faculty-driven strategic planning effort to explore learning and curriculum innovation, review our research mission to determine what areas are best to pursue in face of declining funding, and review best practices and potential improvements and in clinical operations.
- Partnered with South Carolina Honors College to create a seven-year accelerated medical degree program which will begin in Fall 2015.
- Department of Orthopaedic Surgery opened a new state-of-the-art orthopaedic and sports medicine clinic at Baptist Parkridge Hospital.
- Department of Obstetrics and Gynecology began offering the CenteringPregnancy program, a national model of group prenatal care maintained by the Centering Healthcare Institute based in Boston.
- Focused growth in research (neuroscience, inflammation, cardiovascular, healthcare delivery, telemedicine, and ultrasound). Extramural funding continued to increase from \$26M in 2005 to over \$50 million in 2014, with federal research funding (NIH, NSF, HHS) of over \$30 million in 2014; over one third of the federal funding is from NIH awards. Total federal funding increased 40% over the last year.
- Annual external funding per tenured/tenure-track faculty member is >\$160,000. The School of Medicine also had >200 submissions for external funding during the year.
- SOM faculty received additional VA-funded Merit Awards and VA major equipment grants.
- Wayne E. Carver, Ph.D., was appointed professor and chair of the Department of Cell Biology and Anatomy.
- Meera Narasimhan, M.D., was named associate provost for health sciences.
- Frank Spinale, M.D., Ph.D., professor, Cell Biology and Anatomy, was selected as one of eight recipients of the university's Breakthrough Leadership in Research Award.

Appendix D. School of Medicine's Weaknesses and How They are Being Addressed

<u>Weaknesses</u>

- Loss of substantive financial support from the state.
- Lack of minority faculty members and students
- Lack of scholarship monies to support medical education
- Decrease in negotiated NIH Indirect Cost rates making us the medical school with the lowest rate in the nation.
- Limited resources for addressing needs for additional research infrastructure and classroom space.
- Some competitive disadvantages with other health systems in state

Plans to address weaknesses

- Implementation of Palmetto Health-USC Medical Group.
- Hire development officer and seek additional endowments for minority scholarships, infrastructure improvements, and institutional support through donors, grateful patients, and health systems.
- Explore options for addressing the reduced indirect cost rate.
- Continue to strengthen collaborations with Greenville Hospital System, McLeod Regional Medical Center, Carolinas Health System, Grand Strand Regional Medical Center, and other health systems.
- Address lack of state funding support by increasing awareness of legislators of School of Medicine program.

Appendix E. Statistical Data for School of Medicine

- 1. Number of entering freshman for Fall 2011, Fall 2012, Fall 2013 and Fall 2014 classes and their average SAT and ACT scores. Not applicable to SOM
- 2. Freshman retention rate for classes entering Fall 2011, Fall 2012 and Fall 2013. Not applicable to SOM
- 3. Sophomore retention rate for classes entering Fall 2010, Fall 2011 and Fall 2012. Not applicable to SOM
- 4. Number of majors enrolled in Fall 2011, Fall 2012, Fall 2013 and Fall 2014 by level: undergraduate, certificate, first professional, masters, or doctoral (headcount)

			Headcount	
	Fall	Fall	Fall	Fall
	2011	2012	2013	2014
Certificate	55	51	63	30
First Professional	347	360	367	372
Masters	100	102	144	135
Doctoral	56	43	51	47
Total	558	556	625	584

5. Number of entering first professional and graduate students: Fall 2011, Fall 2012, Fall 2013 and Fall 2014 and their average GRE, MCAT, LSAT, etc.

	Fall 2011		Fall 2012		Fall 2013		Fall 2014	
	Number	MCAT	Number	MCAT	Number	MCAT	Number	MCAT
First Professional	92	28.3	94	28	94	28.7	96	28.7

	Fall 2011		Fall 2012		Fall 2013		Fall 2014	
	Number	GRE	Number	GRE	Number	GRE*	Number	GRE
Doctoral	15	1153	16	1094	12	309*	12	310

^{*} New scoring system

6. Number of graduates in Fall 2013, Spring 2014, Summer 2014 by level (undergraduate, certificate, first professional, masters, doctoral)

	Fall 2013	Spring 2014	Summer 2014
Certificate	0	14	2
First Professional	1	83	0
Masters	5	43	4
Doctoral	2	2	6
Total	8	142	12

Placement	Fall 2013	Spring 2014	Summer 2014
Terminal Masters	5	41	2
Terminal Doctoral	2	2	6
Total	7	43	8

- 7. Four-, Five- and Six-Year Graduation rates for the three most recent applicable classes (undergraduate only) Not applicable to SOM
- 8. Total credit hours generated by your unit regardless of major for Fall 2013, Spring 2014 and Summer 2014.

	Fall 2013	Spring 2014	Summer 2014
Credit Hours	9,677	9,770	747

- 9. Percent of credit hours by undergraduate major taught by faculty with a highest terminal degree. Not applicable to the SOM
- 10. Percent of credit hours by undergraduate major taught by full-time faculty. Not applicable to SOM
- 11. Number of faculty by title (tenure-track by rank, non-tenure track (research or clinical) by rank) as Fall 2012, Fall 2013 and Fall 2014 (by department where applicable).

	Fall 2012	Fall 2013	Fall 2014
Tenure-Track Faculty			
Professor	26	23	20
Associate Professor	21	18	18
Assistant Professor	11	13	13
Librarian	7	7	6

	Fall 2012*	Fall 2013*	Fall 2014*
Research Faculty			
Professor	4 (1)	7 (3)	2 (2)
Associate Professor	5 (2)	5	3
Assistant Professor	15 (3)	11 (1)	7 (2)
Instructor	1 (1)	2	0

	Fall 2012*	Fall 2013*	Fall 2014*
Clinical Faculty			
Professor	23 (103)	25 (38)	21 (45)
Associate Professor	49 (136)	48 (57)	49 (47)
Assistant Professor	83 (649)	77 (225)	94 (276)
Instructor	13 (39)	11 (13)	11 (26)
Librarian	1	1	1

^{*}Includes all salaried and (unsalaried/volunteer) faculty.

12. Current number and change in the number of tenure-track and tenured faculty from underrepresented minority groups from FY 2013.

FY2013	Currently	Change
1	1	0

Due to the majority of the School of Medicine faculty being non-tenure-track, particularly our clinical faculty, it should be noted that 17 salaried and 23 unsalaried/volunteer non-tenure-track faculty are from underrepresented minority groups.

Appendix F. Statistical Research Data for School of Medicine

1. The total number and amount of external sponsored research proposal submissions by funding source for FY2014.

FY2014	Total	FEDERAL	STATE	FOUNDATION	Local	COMMERCIAL	OTHER	Agency
Number								
Applications								
Submitted	212	145	3	30	1	17	8	8
Amount							_
