## **Executive Summary**

#### Blueprint for Academic Excellence School of Medicine - Greenville AY2020-2021

### Introduction

The University of South Carolina School of Medicine Greenville (UofSC SOMG) offers a separately accredited, four-year undergraduate medical education program designed to produce a distinctive Doctor of Medicine (MD) degree founded on the needs of the changing health delivery setting. Located on the Greenville Memorial Medical Campus of Prisma Health-Upstate (formerly Greenville Health System), students are immersed in the healthcare delivery system from their first week, and learn using the latest clinical, information and simulation technology to develop leadership, clinical, and interpersonal skills essential to delivering the next generation of patient-focused health care with confidence and compassion.

### Highlights

The University of South Carolina School of Medicine Greenville achieved Liaison Committee on Medical Education (LCME) full accreditation in February of 2016, and graduated its inaugural class in May of 2016. United States Medical Licensing Examination (USMLE) Step examination 1st-time pass rates remain competitive (94.3% for Step 1, 98% for Step 2 CK, and 94% for Step 2 CS), and National Resident Matching Program (NRMP) results are strong for four consecutive classes, with a 100% placement of graduates. UofSC SOMG continues to attract a strong applicant pool, with 3,883 candidates for the 100 spots in the class to enter in July 2020.

Marjorie R. Jenkins, MD MEdHP FACP, Dean University of South Carolina School of Medicine Greenville

Mayore Z. Junkus

### **Foundation for Academic Excellence**

### **Mission Statement**

We prepare physicians committed to improving the health and wellness of your family and your community through creative teaching, innovative research and quality clinical care.

Updated: 07/01/2018

#### **Vision Statement**

Cultivate a culture of curiosity and commitment to others to transform the health and wellness of communities.

Updated: 07/01/2018

### Values Statement

The UofSC School of Medicine Greenville:

-will be responsive to the changing health care needs of the diverse communities we serve with an emphasis on health and wellness.

-understands that health care delivery is constantly evolving and that its physician graduates must facilitate and advocate for transformative care that improves patient health and the health of communities.

-will graduate physicians who understand comparative effectiveness research and are champions for patient safety, high-value, evidence-based care and continuous quality improvement.

-will produce competent, respectful, compassionate physicians dedicated to providing culturally sensitive, interprofessional patient care.

-will recruit, develop and support faculty and staff who are committed to their professions as a calling, and who consider their teaching abilities as a gift and a privilege.

-will graduate physicians fully prepared to enter specialty training and who demonstrate a commitment to lifelong learning and civic responsibility.

-will be integrated with all aspects of our partner health delivery system, utilizing policies and procedures that synergistically combine the academic virtues of UofSC with the operational efficiencies of Prisma Health.

Updated: 07/01/2018

Goals for the previous Academic Year.

#### **Goal 1 - Administrative Leadership Acquisition and Development**

Goal Statement	Recruit and assimilate highly qualified individuals for two senior administrative positions: Dean and Assistant Dean for Admissions.
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Building Inclusive and Inspiring Communities</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	UofSC SOMG faculty selection, development, and promotion processes favored those committed to their profession as a calling, and who view their teaching ability as a gift and privilege.
Status	Completed successfully
Action Plan	A thoughtfully assembled committee was charged by the UofSC Provost to lead the search for a new Dean of the School of Medicine Greenville upon the founding Dean's planned retirement in September 2019. In parallel, recruitment for an Assistant Dean of Admissions was conducted internally.
Achievements	Marjorie Jenkins, MD MEdHP FACP, was hired as the Dean, with a start date of August 1, 2019, and Julie Linton, MD FAAP, was hired as Assistant Dean for Admissions, with a start date of July 1, 2019.
Resources Utilized	Multi-disciplinary teams were assembled across the UofSC, School of Medicine Greenville, and Prisma Health to conduct effective searches for the Dean and Assistant Dean of Admissions. Witt Kieffer was engaged to support the Dean's search.
Goal Continuation	
Goal Upcoming Plans	
Resources Needed	
Goal Notes	

Goal 2 - Facilities master planning	
Goal Statement	Initiate a master planning process to enable more strategic use of space. Short term needs should address the relocation of 18,000 square feet of faculty and administrative offices but longer term planning should prepare for expanded needs of the school's academic, innovation and research activities and partnerships
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Building Inclusive and Inspiring Communities</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	Will be integrated with all aspects of our partner health delivery system, utilizing policies and procedures that synergistically combine the academic virtues of UofSC with the operational efficiencies of Prisma Health
Status	Progressing as expected (multi-year goal)
Action Plan	Strategic collaboration with facilities development teams to design, plan and execute on the faculty and administrative office move while also conducting thoroughly space planning needs assessments within the education building and other laboratory spaces.
Achievements	
Resources Utilized	Significant personnel will be engaged throughout the life of the short term facilities move and ongoing as needed. A needs assessment has commencement to quantify capital funding from the health system and/or school to support the space needs.
Goal Continuation	
Goal Upcoming Plans	
Resources Needed	Capital infrastructure needs anticipated but unquantifiable at this time
Goal Notes	

Goal 3 - \$50M Scholars	ship Endowment Mini Campaign
Goal Statement	Launch \$50 million UofSC SOMG Scholarship Endowment Mini- Campaign
	UofSC SOMG continues to commit to awarding 20% of total tuition dollars for student scholarships to remain competitive and continue attracting the best applicants. This, combined with several efforts to raise financial literacy, has helped UofSC SOMG maintain a low average debt for its students, ranked in the mid-50th percentile. Both the UofSC Development office and Prisma Health-Upstate Office of Philanthropy are engaged in efforts to raise this level of scholarship opportunity and are the primary drivers behind the \$50M scholarship endowment campaign. UofSC SOMG remains committed and sensitive to limiting student debt.
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Building Inclusive and Inspiring Communities</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	UofSC SOMG strives to alleviate the cost of medical education as a significant barrier to student matriculation and graduation, or as a factor in the selection of a career specialty.
Status	Progressing as expected (multi-year goal)
Action Plan	This campaign remains in its quiet phase and will leverage the school's 10th anniversary in 2022 and increased brand awareness to launch a more public and broad ask to complete and surpass the \$50 million goal. The effort focuses on the following sub-segments of prospects: Supporters of each of five colleges (Bob Jones, Furman, Clemson, UofSC, Wofford); the business community; foundations; and individuals. Each prospect segment is engaged with philanthropy through connection point meetings/Dean's lunches, tours of the school with students, and strategic follow-up gift proposals. Annual gifts are generated via online giving, email solicitation and Give 4 Garnet (Giving Day for UofSC). Prospects, community members, and donors receive cultivation and stewardship opportunities through the school's White Coat Ceremony, Match Day, and Convocation/Commencement celebrations, with major scholarship donors invited to the annual Donor Scholar Dinner.
Achievements	Approximately \$15.7M has been committed to endowed funds, including \$6.7M in estate gifts. Nearly \$7.7M in annual funds have been committed to scholarship, with an additional \$367,000 dedicated to named student awards for upperclassmen. Currently the medical school is near 60% of

	achieving the \$50 Million goal. Due to the strategic prospect focus on distinct segments, the school has built a loyal base of donors and influencers willing to connect the Dean and leaders with additional supporters and resources.
<b>Resources Utilized</b>	Support from UofSC and Prisma Health-Upstate Development offices, as well as senior leadership.
Goal Continuation	Scholarship campaign is on track to be completed by year end 2022.
Goal Upcoming Plans	The Dean's Office, with development assistance, will create a Dean's Council to serve as the strategic campaign committee. In addition, development staff will work with the marketing team to utilize its brand awareness campaign to further engage prospects.
Resources Needed	
Goal Notes	

Goal 4 - Diversity and	Inclusivity Student pipeline enrichment
Goal Statement	Initiate a pre-matriculation program to promote academic success for students with diverse backgrounds holding an offer to
Linkage to University Goal	<ul> <li>attend UofSC SOMG.</li> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Building Inclusive and Inspiring Communities</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	UofSC SOMG supports development of a healthcare workforce that reflects future societal needs and the diversity of the communities served.
Status	Completed successfully
Action Plan	Prisma Health-Upstate and UofSC SOMG have established a multi- tiered pipeline program, the Medical Experience (MedEx) Academy, aimed at increasing the number and diversity of the health care workforce. Efforts will be focused on making the MedEx Academy a more strategic pipeline through areas such as: enhancing partnerships with historically black colleges and universities (HBCUs); assistance in preparing students for medical school through immersion into a medical school-lite curriculum inclusive of academic and clinical learning experiences, testing practice, and other portfolio building activities; continued input and engagement from the SC Diversity Leaders Initiative Advisory Council; and Development of a MedEx Tier V program, to provide individualized mentoring to address a student's specific area(s) of weakness in order to improve competitiveness of their application. The HBCU pilot has been initiated with Claflin University and a MedEx site is in planning for Orangeburg.
Achievements	15% of all students across the entire student body identify as URM.
<b>Resources Utilized</b>	Process strongly supported by Office of Student Affairs and Admissions, Office of Academic Affairs, clinical career counselors, and faculty mentors and advisors.
Goal Continuation	Prisma Health-Upstate and UofSC SOMG have established a multi- tiered pipeline program, the Medical Experience (MedEx) Academy, aimed at increasing the number and diversity of the health care workforce. Efforts will be focused on making the MedEx Academy a more strategic pipeline through areas such as: enhancing partnerships with historically black colleges and universities (HBCUs); assistance in preparing students for medical school through immersion into a medical school-lite

	curriculum inclusive of academic and clinical learning experiences, testing practice, and other portfolio building activities; continued input and engagement from the SC Diversity Leaders Initiative Advisory Council; and Development of a MedEx Tier V program, to provide individualized mentoring to address a student's specific area(s) of weakness in order to improve competitiveness of their application. The HBCU pilot has been initiated with Claflin University and a MedEx site is in planning for Orangeburg.
Goal Upcoming Plans	Development of a MedEx Tier V program to provide individualized mentoring to address a student's specific area(s) of weakness in order to improve competitiveness of their application. The HBCU pilot has been initiated with Claflin University and there has been a MedEx site established in Orangeburg.
Resources Needed	UofSC SOMG faculty and selected medical students serve as instructors/mentors alongside the Office of Admissions for portfolio development and guidance. Funding support for the MedEx Academy has been and will continue to be funded from Prisma Health-Upstate and their philanthropy. Ongoing success will be heavily contingent upon raising the endowment for student scholarship in support of selecting a diverse student population
Goal Notes	Current UofSC SOMG Diversity Dimensions: Underrepresented Minorities in Medicine: African American, Latino/Hispanic, Native American From Rural Communities (less than 25,000 people and greater than thirty miles from a population of over 100,000 people) First Generation College Student Socioeconomically Disadvantaged and/or AMCAS fee assistance Raised in a home with English as a second language Second career

#### Goals for the current Academic Year.

#### **Goal 1 - UGME and GME Research Strategy Development**

Goal Statement	Development of a strategic plan centered around the UofSC SOMG and GME research endeavors.
Linkage to University Goal	Spurring Knowledge and Creation
Alignment with Mission, Vision, and Values	UofSC SOMG will graduate physicians who understand and participate in research that compares the relative clinical effectiveness and outcomes of various treatments.
Status	Progressing as expected (multi-year goal)
Action Plan	HSC and SOM strategic planning is in process, and Prisma Health appointed Des Kelly, MD, Executive Director for Research and Associate Dean of Research. Faculty and student research engagement has also noticeably increased. Efforts will continue to broaden research efforts, publication, presentations, and external grant funding.
Achievements	Prisma Health HSC and UofSC SOMG strategic planning processes are underway. Prisma Health appointed an Executive Director of Research (Des Kelly, MD). Faculty engagement in research has noticeably increased. Success will be measured by publication, presentation, and grant submission/award activities.
Resources Utilized	Resources are adequate for the strategic planning process. Resources necessary for implementation of the strategic plan will be determined
Goal Continuation	
Goal Upcoming Plans	
Resources Needed	
Goal Notes	

### **Goals - Real Time**

	ation continuous readiness
Goal Statement	Embedding proactive approaches at ensuring continuous accreditation readiness and preparedness across the school.
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Building Inclusive and Inspiring Communities</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	The LCME accreditation and re-accreditation process requires UofSC SOMG to demonstrate, maintain, and continuously improve against competencies and established standards.
Status	Progressing as expected (multi-year goal)
Action Plan	CQI activities, including the previous LCME concerns, continue to be pursued, are formally monitored, and surrounding processes are being put in place to ensure preparedness across all areas of the school.
Achievements	UofSC School of Medicine Greenville received its initial accreditation in February 2016, and has completed all required status reports with satisfactory results. The self study process began on January 6, 2020.
<b>Resources Utilized</b>	Collective response compiled by Dean's Administration. No additional resources needed.
Goal Continuation	The next LCME site visit will be February 21-24, 2021. The UofSC School of Medicine Greenville leadership team continues to look for areas of growth and accreditation preparedness. Where appropriate, tactical and measurable plans will be set and initiated, with monitoring incorporated in the already developed CQI process, based on feedback received from the self study process and independent student analysis.
Goal Upcoming Plans	
Resources Needed	
Goal Notes	

### **Goals - Real Time**

Goal 3 - Building a Sus	tainable Future
Goal Statement	Integrating forward thinking sustainability into school operations, research, and teaching.
Linkage to University Goal	<ul> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	Uof SC SOMG will recruit, develop, and support faculty and staff who are committed to their professions as a calling, and who consider their teaching abilities as a gift and privilege.
Status	Progressing as expected (multi-year goal)
Action Plan	AY2020-AY2021 - Develop a workforce optimization plan that ensures we have the right team members in place, with the proper tools and resources, to effectively fulfill the essential and mission-aligned functions of our school.
Achievements	Early implementation of a comprehensive desk audit process is underway, with a framework compensation model built to ensure equity and sustainable growth.
Resources Utilized	
Goal Continuation	
Goal Upcoming Plans	
Resources Needed	Collective feedback across the team, to identify areas of opportunity, engagement of class and compensation, utilization of AAMC and other industry benchmarks and best practices.
Goal Notes	

### **Goals - Real Time**

Goal 4 - Continuous Re	adiness in the Face of External Pressures
Goal Statement	Continuous Readiness in the Face of External Pressures
Linkage to University Goal	Ensuring Institutional Strength, Longevity, and Excellence
Alignment with Mission, Vision, and Values	Uof SC SOMG will be responsive to the changing health care needs of the diverse communities we serve, with an emphasis on health and wellness; SOMG understands that health care delivery is constantly evolving, and that its physician graduates must facilitate and advocate for transformative care.
Status	Newly Established Goal
Action Plan	Assess needs, develop innovative solutions, and proactively identify resources needed to overcome current external pressures such as: pandemic's impact on restricted access to the clinical learning environment and need for online content delivery, net cost of education in time of anticipated decreased philanthropy and loan availability amidst rising costs of operations, rapidly changing models of health care delivery impacting educational strategies.
Achievements	Rapid transition in educational strategy posed to ensure successful delivery of the curriculum in the Spring 2020 semester; collaboration with health system partners to contribute innovative solutions (VESper) and research, donation of critical supplies and thought leadership during global crisis.
<b>Resources Utilized</b>	
Goal Continuation	
Goal Upcoming Plans	
Resources Needed	Full resource planning underway to identify cost containment measures and new partnerships that will provide critical resources needed to sustain educational excellence throughout extreme financial climate changes.
Goal Notes	

Goals for the next Academic Year.

#### **Goal 1 - Capital Campaign / Philanthropy**

Goal Statement	Launch of a capital campaign and increase in philanthropy for the UofSC SOMG.
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Assembling a World-Class Faculty of Scholars, Teachers, and Practitioners</li> <li>Spurring Knowledge and Creation</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	UofSC SOMG strives to alleviate the cost of medical education as a significant barrier to student matriculation and graduation, or as a factor in the selection of a career specialty.
Status	Newly Established Goal
Action Plan	This campaign will leverage the school's 10th anniversary in 2022, along with increased brand awareness, to launch a more public and broad ask to increase philanthropy and achieve its goal.
Achievements	
<b>Resources Utilized</b>	
Goal Continuation	
Goal Upcoming Plans	The Dean's Office, with development assistance, will create a Dean's Council to serve as the strategic campaign committee. In addition, development staff will work with the marketing team to utilize its brand awareness campaign to further engage prospects.
Resources Needed	Support from UofSC and Prisma Health-Upstate Development offices, as well as senior leadership.
Goal Notes	

## **Goals - Looking Ahead**

Goal 2 - Curriculum Re	fresh
Goal Statement	Refresh and refine currently nationally recognized curriculum. The UofSC School of Medicine Greenville curriculum has been recognized for its attention to the early introduction of clinical experiences, blended classroom techniques, and novel content, including lifestyle medicine. The goal of the curriculum refresh is to 1) intentionally embed adaptive models of healthcare delivery, 2) enhance student engagement, and 3) develop certificate programs allowing a greater number of students to achieve unique qualifications to become leaders in their future field of study.
Linkage to University Goal	<ul> <li>Educating the Thinkers and Leaders of Tomorrow</li> <li>Spurring Knowledge and Creation</li> <li>Ensuring Institutional Strength, Longevity, and Excellence</li> </ul>
Alignment with Mission, Vision, and Values	Our school's goal to cultivate curiosity and teach innovatively requires us to regularly review and revise our pedagogy and assessment methodologies.
Status	Newly Established Goal
Action Plan	Kick off review and revision of curriculum in fall 2020.
Achievements	Implementation of revised curriculum in fall 2022.
<b>Resources Utilized</b>	Faculty time and an external consultant.
Goal Continuation	
Goal Upcoming Plans	
<b>Resources Needed</b>	Enhanced technology and an external consultant.
Goal Notes	

#### **Program Rankings**

Academic programs that were nationally ranked or received external recognition during the Academic Year.

Lifestyle Medicine - Dr. Jennifer Trilk, UofSCSOMG Assistant Professor of Physiology and Exercise Science, pioneers the nationally recognized Lifestyle Medicine program, distinguishing UofSC SOMG as the first school within the US to incorporate exercise physiology into all four years of the curriculum. Prisma Health leads the nation with the most Lifestyle Medicine certifications in the United States, and the partnership between Prisma Health and UofSC SOMG led to its designation as the #1 health system in the country for Lifestyle Medicine-credentialed specialist, professionals, and practitioners, by the American College of Lifestyle Medicine.

### **Instructional Modalities**

*Innovations and changes to Instructional Modalities in unit's programmatic and course offerings that were implemented during the Academic Year.* 

Ultrasound technology as a diagnostic tool is now considered a standard of care in most healthcare institutions. Training medical students in their preclinical years in diagnostic and procedural ultrasound will ensure that students are better prepared to perform patient care in today's healthcare environment, and will provide the time to achieve competency in performing the common tests expected. The use of live technology with standardized patients or classmates, when appropriate, will further enhance the students' ability to achieve better diagnostic accuracy and learning. Ultrasound training during the first and second years has been integrated into the biomedical sciences, such that both curricula will coincide. This modality started in March 2017 and was expanded in early 2019 with new technology.

#### **Program Launches**

Academic Programs that were newly launched during the Academic Year; those that received required approvals but which had not yet enrolled students are not included.

There were no new program launches during this academic year.

#### **Experiential Learning for Undergraduates**

*Initiatives, improvements, challenges, and progress with Experiential Learning at the Undergraduate level.* 

Not applicable.

### **Experiential Learning For Graduate Students**

*Initiatives, improvements, challenges, and progress with Experiential Learning at the Graduate or Professional level.* 

Through the Integrated Practice of Medicine (IPM) course, encounters with standardized patients utilizing telehealth technology were initiated during this academic year. This has served us well as our current third year medical students have practical experience with remote patient care delivery models that are being widely deployed by clinicians during the current pandemic. These experiences will be increased and broadened throughout all four years of IPM.

Simulation experiences have been broadened to enhance interprofessional team communication and to further model care delivery scenarios. These interprofessional experiences include medical assistant, scrub technician, and nursing students from Greenville Technical College, graduate nursing students from Clemson School of Nursing, and PharmD and cRNA students from UofSC.

Community engagement has been reorganized and these efforts recognized by a grant award from the AAMC/CDC. Student leadership of these community engagement activities has resulted in a more impactful and meaningful partnership with community agencies and a stronger visible presence of the UofSC School of Medicine Greenville in the local community.

Intentional integration of technology in the preclinical and clinical academic experiences for our students resulted in the UofSC School of Medicine Greenville being recognized as an Apple Distinguished School, one of only four such schools in the US.

### Affordability

Assessment of affordability and efforts to address affordability.

Despite being classified as having the country's highest tuition for non-resident students, UofSC Schools of Medicine encourage non-resident matriculates to establish residency during their M1 year, so that only resident based education expenses are applied in the M2-M4 years of their medical school education. As such, UofSC SOMG monitors the total cost of attendance over the full four years of education, and ranks favorably against MUSC and other surrounding state schools of medicine for total tuition.

UofSC SOMG continues to commit to awarding 20% of total tuition dollars for student scholarships to remain competitive and continue attracting the best applicants. This, combined with several efforts to raise financial literacy, has helped UofSC SOMG maintain a low average debt for its students, ranked in the mid-50th percentile. Both the UofSC

## Academic Initiatives

Development office and Prisma Health-Upstate Institutional Advancement Office are engaged in philanthropic efforts to raise this level of scholarship opportunity, and UofSC SOMG remains committed and sensitive to limiting student debt.

### **Reputation Enhancement**

Contributions and achievements that enhance the reputation of UofSC Columbia regionally and nationally.

Intentional integration of technology in the preclinical and clinical academic experiences for our students and to enhance work efficiencies of our faculty and staff resulted in the UofSC School of Medicine Greenville being recognized as an Apple Distinguished School (ADS), one of only four such schools in the US. Our ADS celebration brought community leaders and donors to our school for an impactful showcasing of the innovation in our educational program. Dr. Sharkey has been invited to present our journey to Apple recognition to the Higher Education division of Apple Inc. in May, and has been invited to speak at the annual Apple Medical School forum in Cupertina in June of 2020.

Community engagement activities for our students, faculty, and staff have been restructured with the intent of creating a measureable impact on the wellness of our community. These efforts have been recognized by a grant award from the AAMC/CDC NEXT award program. Student leadership of community engagement activities has resulted in a more impactful and meaningful partnership with community agencies and a strengthening of the visible presence of the UofSC School of Medicine Greenville in the local community.

### Challenges

Challenges and resource needs anticipated for the current and upcoming Academic Years, not noted elsewhere in this report and/or those which merit additional attention.

UofC SOMG exists in a unique education and research environment defined by the Prisma Health's Health Science Center clinical university model, in which four non-incorporated partners (Prisma Health-Upstate, University of South Carolina, Clemson University, and Furman University) have come together to collaboratively pursue highly applied health profession education and health services research within the 8-campus Upstate footprint of Prisma Health. This model is still in its infancy, and success is dependent upon the willingness and ability of the partners to cooperate across traditionally competitive lines to facilitate and support collaborative education programs and research initiatives of multi-institutional faculty, staff, and administration. In the current resource constrained environments of higher education and health care, the potential is great if that can be achieved.

Securing philanthropy for the purpose of student scholarship continues to remain a top financial challenge for UofSC SOMG. UofSC SOMG commits a minimum 10% of tuition revenue annually to medical school scholarships, and needs to offset 20% of tuition payments, a threshold established in order to attract the best candidates, minimize financial burden as a barrier to entry and reduce student indebtedness. Since UofSC SOMG receives no state dollars, the SOM must rely on tuition revenue, grant and research funds, and significant funding from philanthropy to provide a sustainable funding source for the school beyond the health system operational commitment. Because of this, UofSC SOMG is working closely with the UofSC Development office to continue its mini-campaign to raise \$50 million toward an

## Academic Initiatives

endowment to support scholarships for the medical students, thus providing the additional 10% equivalent of tuition dollars needed for scholarship.

The proposed 7% employer contribution to the state pension plan over the next six years continues to have a resounding impact on the salary and fringe expenditures covered by UofSC SOMG to support its state employed faculty and staff. While the current South Carolina state budget proposal included funding to cover portions of the otherwise unfunded mandate consequent to the pension bill, UofSC SOMG's commitment not to receive state line-item appropriations precludes UofSC SOMG from partial cost relief from the state's efforts. In conjunction with rising healthcare benefits, blended fringe rate of between 42-48% for UofSC SOMG faculty and staff in the next five years, a number reaching a point of economic instability in the absence of state financial support.

### **Faculty Employment by Track and Title**

The following data was provided by UofSC's Office of Institutional Research, Assessment, and Analytics.

	Fall 2019	Fall 2018	Fall 2017
Tenure-track Faculty	5	6	6
Professor, with tenure	2	3	2
Associate Professor, with tenure	2	2	2
Assistant Professor	1	1	2
Librarian, with tenure	0	0	0
Research Faculty	2	1	1
Research Professor	1	1	1

## **Faculty Information**

### **Research and Scholarly Activity**

*Please refer to Appendix 3, which provides detailed information from the Office of the Vice President for Research, department of Information Technology and Data Management, including:* 

1) The total number and amount of externally sponsored research proposal submissions by funding source for the appropriate Fiscal Year.

2) Summary of externally sponsored research awards by funding source for the appropriate Fiscal Year. Total extramural funding processed through Sponsored Awards Management (SAM) in the Fiscal Year, and federal extramural funding processed through SAM in the Fiscal Year. (Available at: http://sam.research.sc.edu/awards.html) Amount of sponsored research funding per faculty member for the appropriate fiscal year (by rank, type of funding; e.g., federal, state, etc., and by department if applicable).

*3)* Number of patents, disclosures, and licensing agreements for three most recent Fiscal Years.

Biomedical Sciences and Clinical Sciences peer-reviewed presentations and publications for AY18-19 are attached as an appendix, and an Excel spreadsheet is available upon request.

### **Faculty Development**

*Efforts at Faculty Development, including investments, activities, incentives, objectives, and outcomes. Optional* 

Faculty development at UofSC SOMG is focused on equipping the faculty for the immediate needs of teaching, research and scholarship, and service. The long term priorities have focused on increasing resilience among the physician faculty and building and sustaining functional teams across all faculty levels. As we move ahead, there will be increasing emphasis on evidence-based methods for teaching, and advancing faculty awareness of learning theory and sound teaching practice. UofSC SOMG has benefited from having a full time Director of Professional Development dedicated to organizing and delivering faculty and professional development, and a strong and engaged Faculty Development Committee with equal representation from basic science and clinical science faculty members. The school invests significant resources in individual and group development in response to priorities and needs, and we make faculty development available to all faculty through live presentations, the development funds that can be expended as the faculty determine their own individualized needs.

## Teaching

#### **Faculty to Student Ratio**

The following data was provided by UofSC's Office of Institutional Research, Assessment, and Analytics.

The formula used to compute the ratio uses data from Faculty Population by Track and Title and Student Enrollment by Time Basis, as follows:

(Total Full-time Students + 1/3 Part-time Students)

((Total Tenure-track Faculty +Total Research Faculty + Total Clinical/Instructional Faculty) + (1/3 Adjunct Faculty))

Table 4. Faculty-to-Student Ratio.

	Fall 2019	Fall 2018	Fall 2017
Analysis of Ratio	01:17.8	01:16.7	1:13.9

#### **Analysis of Ratio**

Analysis of the ratio, agreement with the data, and plans for the future to impact this ratio.

UofSC SOMG provides several options for student access. Classes in the preclinical years for the medical school are organized as modules, each with a single course director and several faculty from different disciplines. The course director organizes and maintains communication between students and module faculty and offers office hours for expanded access. In most cases, there are only two classes/modules running concurrently. UofSC SOMG utilizes a high proportion of learner centered small group (6-10 students/group) sessions in which students have direct access to faculty. In addition, students have access to discussion boards via Canvas where they can ask questions to faculty or other students. The Biomedical Sciences faculty is nearly at full staff with a remaining three positions in physiology, immunology, and neurosciences currently in recruitment.

### **Student Recruiting and Retention**

### **Student Recruitment**

Efforts, including specific actions, to recruit students into College/School programs.

Since matriculating the first class in 2012, the UofSC SOMG applicant pool continues to be robust, and enables student selection under rigorous admission criteria.

Efforts are underway to strengthen direct relationships with local, regional, and statewide undergraduate institutions with pre-medical programs, to further develop an early decision process and pre-admission programs. Already established with Furman University, Clemson University, and Bob Jones University, these pre-matriculation programs provide a select number of guaranteed spots for rising seniors meeting established admissions criteria, generating a pipeline of well-qualified students into UofSC SOMG that are likely to remain within South Carolina for their training and subsequent medical careers.

The Medical Experience (MedEx) Academy is a K-12 through college pipeline program that attracts students to careers in healthcare by providing unique opportunities to explore health care through simulation, lectures, workshops, research, and community service. Operated by Prisma Health-Upstate and funded over 80% through philanthropic funds, the MedEx Academy is now in its sixth year and is structured as a tiered offering that varies in grade of students, length of program, and intensity, providing a significant and well diversified workforce development pipeline and a mechanism for UofSC SOMG to increase and enhance student recruitment.

UofSC SOMG is also able to leverage partnerships through an initiative between Furman University and Historically Black Colleges and Universities (HBCUs) across the state to target outstanding undergraduates. Preparation includes immersion in the "medical school-lite" curriculum, MCAT practice, interview skills, and other portfolio building engagements, and offers an admission pipeline that increases the diversity of the applicant pool and better prepares selected matriculating students for entry and success through their medical school education.

UofSC SOMG's focus on individuals with a variety of "life paths" who have different racial, ethnic, gender, geographic, socioeconomic, and academic backgrounds is highlighted in the recruitment materials that are made available through the UofSC SOMG website, and also by brochure. School material also contains information on the curriculum and all requirements to obtain the MD degree, course descriptions, immunizations, behavioral objectives, school curricular objectives, and the multiple avenues for reporting mistreatment.

### **Student Retention**

Efforts at retaining current students in College/School programs.

A three-tiered career advising program is in place to enhance the probability of success for matriculated students and enrich their learning experience with adequate mentorship, advisement, and resources. Modeled after the AAMC Careers in Medicine (CIM) Program, most of the activities in place at UofSC SOMG are coordinated through the Office of Student Affairs and include:

## **Student Recruiting and Retention**

(a) Faculty Mentors – clinical faculty in the IPM longitudinal module that are assigned to students in small groups during the M1 and M2 years. These faculty mentors are expected to assist students in matters related to study habits, organization skills, time management skills, mastery of content, and personal well-being. Mentors support and encourage students, check in with them occasionally, and look for any signs that a student may be struggling personally or academically, then assist in finding resources that are available to aid in these situations.
(b) Career Counselors – clinical faculty specifically trained to assist with career planning, M3 and M4 scheduling, and the residency application and match processes, while continuing to support students and assist them when they may be having academic or personal difficulty. Students choose their career counselors through a lottery system, and counselors follow them from mid-M2 year through graduation.

(c) Specialty Advisors – clinical faculty members who can provide specialty specific advice to students interested in pursuing their field. Guidance is provided related to residency match, residency training, away rotations, and other topics related to planning for a career in their specific field of medicine.

Additional activities, such as student-lead interest groups, peer tutoring, and the continued administrative support from the Office of Student Affairs and Admissions is available. UofSC SOMG has further established learning communities, referred to as "Colleges", that are designed to promote camaraderie, a sense of community, wellness, and mentorship through activities related to team building and civic engagement, another critical component to enriching student retention efforts.

UofSC SOMG incorporates an extensive formative assessment program in the curriculum, which enables early identification of students experiencing academic difficulty. Those identified receive additional assistance and counseling supportive of academic success and, as needed, are offered individualized assessment, personalized study plans, special tutoring, and other additional academic support or educational testing if deemed appropriate by the Student Evaluation & Performance Committee.

Resources for study skills, time management, test-taking strategies, and other similar programs and offerings are provided throughout each student's entire time at UofSC SOMG, alongside financial aid, financial literacy, and debt management services to mitigate stressors and/or reasons that may lead to student drop out or transfer.

The following data was provided by UofSC's Office of Institutional Research, Assessment, and Analytics.

Note: Student enrollment and outcomes data are calculated by headcount on the basis of primary program of student only.

# **Faculty Awards Nominations**

No Awards Nominations have been entered for this section.

# **Faculty Awards Received**

Faculty of SOM-G were recognized for their professional accomplishments in the categories of Research, Service, and Teaching.

## **Research Awards**

Recipient(s)	Award	Organization
Litwin, Alain	Outstanding Scholar	UofSCSOMG
Chosed, Renee	Young Investigator	UofSCSOMG

## Service Awards

Recipient(s)	Award	Organization
Kennedy, Ann Blair	Outstanding Mentor	UofSCSOMG
Clark, Frank	Outstanding Mentor	UofSCSOMG
Rippon, Mary	Outstanding Mentor	UofSCSOMG
Buckner, Anne Green	Outstanding Service	UofSCSOMG
Benedum, Molly	Outstanding Service	UofSCSOMG

## **Teaching Awards**

Recipient(s)	Award	Organization
Williams, Shanna	Golden Peach Award for BMS	UofSCSOMG
Fowler, Lauren	Golden Peach Award for BMS	UofSCSOMG
Burgin, Chelsea	Golden Peach Award for IPM	UofSCSOMG
Morrow, Dustin	Golden Peach Award for IPM	UofSCSOMG
Lee, Christy	Golden Peach Award for M3/M4 Clinical Education	UofSCSOMG
Sivakumar, Sanjeev	Golden Peach Award for M3/M4 Clinical Education	UofSCSOMG
Rao, Aniel	Golden Peach Award for M3/M4 Clinical Education	UofSCSOMG
Coady, Gretchen	Golden Peach Award for M3/M4 Clinical Education	UofSCSOMG
Grisham, Matt	Outstanding Clinical Role Model	UofSCSOMG
Connelly, Steve	Outstanding Clinical Role Model	UofSCSOMG

## **Other Awards**

Recipient(s)	Award	Organization
Brown, April	Dean's Award	UofSCSOMG
Kennedy, Ann Blair	Dean's Award	UofSCSOMG
Desmosthenes, Lauren	Dean's Award	UofSCSOMG

# Alumni Engagement & Fundraising

## Alumni

Substantial activities, engagements, and initiatives with alumni, focusing on relationships and activities with alumni.

Having graduated four classes, UofSCSOMG's current alumni represent a small but growing population. Alumni interest surveys and highlights of UofSC SOMG program developments have been shared over the past year, and initial stages of furthering engagement include biannual communications targeted around the holidays and graduation, along with current planning for alumni-based events and student engagement activities. Creative work is underway for expansion of the external website, to develop an Alumni section for related news, events, and other details regarding student success, placements, and life events. UofSC SOMG has been engaged in discussions centering on young alumni activities and mentorship programs with prospective and current UofSC SOMG students, and a "friends of the school" group. Plans to develop this approach are being discussed and initiated throughout the current and upcoming academic year, especially as our eldest class of alumni will have graduated from primary care based residencies.

## **Development, Fundraising and Gifts**

Substantial development initiatives and outcomes, including Fundraising and Gifts.

Prisma Health-Upstate completed its Second Century Campaign in 2016, one year ahead of plan, raising \$91 million (14% increase over goal) to strengthen clinical care and expand academic research programs. The success of the campaign provided over \$20.1 million specifically to academic programs, with \$12.7 million being designated directly for UofSC SOMG.

UofSC SOMG, with support from the UofSC Columbia Office of Development, has launched a campaign to raise \$50 million toward an endowment to support scholarships for the students of UofSC SOMG. This mini-campaign is engaging local physicians, corporations, universities and colleges, along with annual and major gift donors, through a variety of naming opportunities, including the school itself, the medical school building, several locations throughout the three-story facility, named scholarships, and distinctive programs. UofSC SOMG has commitments for \$23.7M in annual and major gifts, with a strategy of leveraging the school's 10th anniversary, in 2022, and increased brand awareness to launch a more public and broader campaign to reach the \$50 million goal. Recent scholarship successes include renewed support for the Levi S. Kirkland, Sr. MD Scholarship, which supports underrepresented minority students; establishment of the Lominack Family Scholarship Endowment, a \$1 million commitment from a local physician's family; and the Internal Medicine Associates Scholarship Endowment, a scholarship funded by internal medicine physicians to support the next generation of primary care doctors. In addition to scholarships, UofSC SOMG is building cases for support for additional needed funding opportunities, including student research and travel, faculty innovation in medicine, and additional community engagement and education.

## **Community Engagements and Community - Based Activities**

Community engagement and community based research, scholarship, outreach, service or volunteerism conducted, including activities at the local, state, regional national and international levels.

The school provides several opportunities for students to participate in required and voluntary service learning/community activities. Students are required to participate in emergency medical technician (EMT) training consisting of one, 12-hour ambulance shift per month as active EMTs. The goal of this experience is for students to understand the needs of patients in the community they service, and to increase their awareness of the societal challenges to health care, including access and affordability. Equally important is the goal for students to appreciate the environments from which patients come, and the fact that, after receiving episodic care, patients will return to the same environment in which they became ill or injured.

This program annually provides 14,400 hours of free EMT service to the community and means that there are over 400 EMT trained emergency responders at the medical school to provide bench strength in the event of a mass casualty in the Upstate.

Numerous opportunities exist for medical student participation in voluntary service-learning activities outside of the curriculum. These opportunities are identified and coordinated by the Community Outreach Committee and the Community Outreach Student Director with support from the Office for Student Affairs. Examples include:

<u>Root Cause Health Fair:</u> Root cause is the recipient of a AAMC next grant. Students participate in a monthly health fair held in a medically underserved and socioeconomically disadvantaged community near the medical school. This initiative includes partnerships with over 25 nonprofits and community organizations, medical student groups, medical residents and physicians, and staff from the partner health system. Students offer a variety of programs and services including a free healthy meal and fresh produce boxes in cooperation with a local food bank, appointment scheduling, benefit signups, wellness and movement workshops, and health education. Students receive a comprehensive overview of key health indicators, prevalence of chronic disease states and an overview of the partner health system's educational offerings and partnerships. The needs assessment is used to determine where to offer services through the Root Cause initiative.

Susan G. Komen Race for the Cure: Students raise money and participate in the race to support cancer patients and survivors.

Julie Valentine Center Angel Tree: Holiday gift drive for a community center that supports survivors of sexual assault and child abuse survivors in need.

<u>Speaker/Career Fair Requests</u>: Students participate in events, such as those sponsored by the Furman University Bridges Program for disadvantaged youth, Upstate AHEC, Prisma Health's Health Careers Club, Greenville County Schools, and the Greenville Drive, to promote health and wellness, and health careers.

# **Community Engagement**

<u>Achilles International</u>: A running group developed to empower people of all ages, abilities, and medical/adaptive needs to run, train, and compete in mainstream athletic events. Adaptive equipment, guides, and support is provided to athletes.

<u>FoodShare Greenville</u>: A non-profit dedicated to providing fresh produce to underserved members of the community at a reduced price by packing and delivering food boxes to the community. Students help to pack the boxes with produce and/or assist in delivering the boxes. Additionally, medical students and faculty may sign up to receive food boxes. The program is imbedded within the Lifestyle Medicine Interest Group.

<u>Greenville Free Medical Clinic</u>: Provides free medical and dental care to the uninsured. Students assist with patient care and administrative duties, and serve as medical interpreters. <u>Health Outreach Initiative</u>: Students visit schools to educate students on common diseases, emergency interventions, and healthcare careers.

<u>Hospice</u>: Students work with local hospice organizations, visiting with and supporting patients and their families.

<u>Juvenile Detention Center</u>: Working to provide incarcerated youth a safe, secure, and productive environment, students provide educational programs and activities on a wide variety of topics including exercise fitness, nutrition, first aid, and hygiene.

<u>Medical Roots Garden</u>: Students care for the school's garden and provide vegetables and recipes to patients at the Greenville Free Medical Clinic.

<u>Mentor Upstate</u>: A school mentoring program to support and mentor children and adolescents at local elementary, middle, and high schools.

<u>Positive Exposure Zone</u>: Seeks to support, encourage, and enlighten medical students to become empathetic and compassionate healthcare providers. Utilizing Positive Exposure multimedia educational and arts material, the program provides innovative opportunities for students to celebrate the humanity of patients with special needs.

Faces and Voices of Recovery (FAVOR) Greenville: Students receive training to become recovery coaches and volunteer at community treatment, detox and mental health facilities.

In addition, student-led interest groups are encouraged to sponsor seminars, luncheons, and community service days, and to provide information with respect to service-learning needs and opportunities related to their specific area of interest. Previous events include:

<u>Pediatrics</u>: Children's Museum, Field Day, and "Trunk or Treat" events with the health partner system's children's residential program

<u>OB/GYN</u>: Girlology (an educational and support program for young teens) and the Julie Valentine Center

<u>Sports Medicine/Orthopedics:</u> Metals 4 Mettle races and Habitat for Humanity Build <u>Military Medicine</u>: Partner health system's Veterans Appreciation Day

<u>SWiM (Supporting Women in Medicine):</u> Julie Valentine Center

<u>SCMA/AMA:</u> Voter Registration

<u>SNMA:</u> mentoring partnership with the Urban League and Black Expo

Latino Medical Student Association: Hispanic Health Alliance Health Fairs and a clothing drive for the Foster Care Closet

LGBTQ+: Upstate Pride Festival

Hands Up Greenville: Creating 3D printed prosthetics for patients

Addiction Medicine and Global Health: Opioid Overdose Prevention Program

<u>Colleges Program Leaders:</u> Fundraising for the Ronald McDonald House respite room

Students also have the opportunity to work with faculty on community-engaged research

# **Community Engagement**

activities that incorporate partnership with community-based organizations. For instance, in the summer of 2019, two students piloted a new Latinx Community Health internship, a program that will continue in the summer of 2020. Summer interns work with PASOs to develop a community-based project regarding the health of our local Latinx community, as it relates to social determinants of health. This internship has been funded by a combination of grants from Eat Smart, Move More SC, the American Academy of Pediatrics, and the Robert Wood Johnson Foundation.

# **Community Perceptions**

How unit assesses community perceptions of engagement, as well as impact of community engagement on students, faculty, community and the institution.

The Health Sciences Center, in which UofSC is a primary partner alongside Clemson University, Furman University and Prisma Health-Upstate, is an example of how coming together and leveraging joint resources, talent, and interests can be a successful model to enlarge the academic footprint in response to needs of the population for growing healthcare workforce needs. Through that relationship, community needs awareness, engagement and support will remain in the forefront of the UofSCSOMG faculty, staff, resident and student focus, with support for such embedded deeply within the culture.

## **Incentivizing Faculty Engagement**

Policies and practices for incentivizing and recognizing community engagement in teaching and learning, research, and creative activity.

UofSC SOMG emphasizes service that promotes the stature and engagement of UofSC SOMG and the Prisma Health-Upstate Health Sciences Center through its promotion and tenure unit criteria. Service both inside the institution and within the community is built into the promotion system to incentivize and reward teamwork, engagement and resilience to fuel the population health model.

# Collaborations

# Internal Collaborations

*Our most significant academic collaborations and multidisciplinary efforts characterized as internal to the University.* 

UofSC Arnold School of Public Health - There is a growing presence of the Arnold School in Greenville, with more collaboration across faculty at ASPH and UofSC SOMG, along with plans to expand its presence as the research arm of the Prisma Health CCI.

UofSC School of Medicine Nurse Anesthesia Program - There is a longstanding satellite of the UofSCSOM Columbia CRNA program at Prisma Health-Upstate.

UofSC College of Pharmacy - There are SCSop P3/P4 students permanently at Prisma Health, with plans to expand the number to 20 over the next few years.

UofSC College of Nursing - 4th year nursing students and NP students do elective rotations at Prisma Health-Upstate.

UofSC College of Social Work - Discussions have been initiated with Dean Gehlert to explore collaborative programs for social work programs at Prisma Health-Upstate, eg LISW and LMSW.

# **External Collaborations**

*Our most significant academic collaborations and multidisciplinary efforts characterized as external to the University.* 

Prisma Health Health Sciences Center (primary academic partners – University of South Carolina, Clemson University and Furman University; strategic partner – Greenville Technical College)

Partnership with community partner Faces and Voices of Recovery (FAVOR) to deliver High Value based care addressing the critical population health issue of substance misuse and addiction.

Representatives from Anderson University's leadership and communications teams served as mentors on our journey to becoming an Apple Distinguished School. The collaboration resulted in an Apple book detailing the innovations in our clinical learning environment.

# **Other Collaborations**

Our most significant academic collaborations and multidisciplinary efforts that are not otherwise accounted for as Internal or External Collaborations.

Lifestyle Medicine Education Collaborative (LMED) - an international membership collaborative that offers leadership, guidance and resources to advance the adoption and implementation

# Collaborations

of lifestyle medicine curricula throughout medical education. Co-directed by UofSC SOMG Assistant Professor of Physiology and Exercise Science, Jennifer Trilk, Ph.D. More information: http://lifestylemedicineeducation.org/

Teaching Kitchen Collaborative (TKC), jointly led by The Culinary Institute of Amercia and Harvard T.H. Chan School of Public Health is an invitation network of thought leading organizations using teaching kitchen facilities as catalysts of enhanced personal and public health across medical, corporate, school and community settings. UofSC SOMG was invited to join in Winter 2016. More information: www.tkcollaborative.org

## Improve Under-Represented Minority (URM) Student Enrollment

To support the role of MedEx Academy as our core pipeline program, both the Associate Dean for Student Affairs and Admissions and the new Assistant Dean for Admissions serve on the Board for MedEx Academy. As part of the Self-Study Process for the LCME, the Director of MedEx Academy, the Associate Dean for Student Affairs and Admissions, the Assistant Dean for Admissions, the new Director of Multicultural Affairs, and the Associate Dean for Culture and Inclusion, along with several faculty and staff, serve on the Culture and Inclusion Self-Study Team. Part of the responsibility of this team is to examine opportunities for further development and coordination of pipeline programs. These efforts will incorporate alignment of diversity dimensions for MedEx Academy with diversity dimensions for the UofSC SOMG, including improved enrollment of students who identify as underrepresented in medicine.

In addition to the MedEx Academy, the UofSC SOMG has an emerging partnership with the Duke University Masters in Biomedical Science Program. After several years of informal partnership, the UofSC School of Medicine Greenville recently partnered with the Duke University MBS program in a successful grant application ("Bridges to Excellence: Improving diverse students' transitions from college to medical school") to the Fullerton Foundation. This grant seeks to increase the number of South Carolina residents who identify as historically underrepresented in medicine andare accepted to UofSC School of Medicine Greenville. Applicants receive a conditional acceptance to UofSC School of Medicine Greenville contingent upon successfully achieving specified academic metrics in the Duke University MBS program. This grant includes scholarship support to attend the Duke MBS program and makes additional funding available to the UofSC School of Medicine Greenville to support recruitment and retention (e.g. prospective student travel to interviews, accepted student travel to schoolsponsored events, research support, support for relevant student interest groups).

For students who identify as URM who are accepted to the UofSC SOMG, efforts have also increased to support matriculation. For instance, the LSK society faculty members have called all students who identify as URM to offer congratulations and support and to answer questions. Additionally, the Office of Student Affairs and Admissions is working to update recruitment materials to incorporate a lens of diversity and inclusion in all materials.

## Improve The Number Of Full-Time URM Faculty Across Academic Units

Among our UofSC-employed full-time faculty, we are fortunate to enjoy substantial ethnic and gender diversity. We don't take any success to date for granted, and we recognize that sustained application of best practices in recruiting, retention, and in cultivating an appreciation for diversity during the search process will be required if we are to continue to enjoy success and make further progress toward our goals.

Our Office of Faculty Affairs has voice in the search process for all appointments at the level of Chair and for the recruitment of all academic leadership (i.e., associate deans and other senior leadership), and we have been successful in improving diversity significantly among

these selected faculty leaders. Among our health system-employed physician faculty where we have little to no control in the selection process, we have recognized an opportunity to select for diversity dimensions as we appoint faculty to significant teaching other leadership roles below the levels mentioned above (e.g., Clerkship directors, Small-group Leaders, etc.,). All Prisma-hired physician faculty receive some form of academic appointment and this represents the complete pool of physicians from whom we might draw. Currently, the body of primary teaching faculty is significantly more diverse than the overall faculty pool. As we move from an informal process of communicating the value we see in diversity among our selected faculty toward a more intentional and formalized selection process, we expect to see further enrichment of the faculty with respect to gender diversity and the inclusion of URM faculty across the various academic units.

# Enhance Outcomes For URM Undergraduate and Graduate/Professional Students

Students experiencing academic difficulty or at risk for academic difficulty are identified by the Success Coaches as part of the College system. The College system at the UofSC School of Medicine Greenville is designed to support academic success and career exploration and promote camaraderie, a sense of community, wellness, and mentorship through activities related to team building, civic engagement and medical student well-being. The Colleges are supportive, learning communities that provide students with opportunities to bond with fellow College members from all four classes by participating in community service projects, social activities, mentoring, wellness activities and more. During orientation for the matriculating first year class, each student is assigned to one of five Colleges. Students remain in the same College throughout medical school.

Each of the five colleges is supported by a College Advising Team consisting of an Associate Dean, two Career Counselors, two College Community Mentors, a student leader from each class, two Residents from the health system partner, and a Success Coach.

For early identification of students experiencing academic difficulty or at risk for academic difficulty, Success Coaches, in partnership with other members of the College Advising Team, engage in the following:

At the onset of the academic year, matriculating M1 students who may be at risk for academic difficulty are identified by the Success Coaches with the assistance of the Office for Student Affairs and Admissions. Once identified, their performance, in addition to that of all other students, is closely monitored throughout the academic year to ensure that evidence of poor academic performance is promptly identified and addressed before a failing grade is received.

To aid in the early identification of students experiencing academic difficulty the following measures are in place:

M1 and M2 years: o Formative Exams o Summative Exams o Learning and Study Strategies Inventory (LASSI)

### M2 year:

Based upon data analysis from previous years examining the correlation between performance on the NBME Comprehensive Basic Science Examination (CBSE) and success on the USLME Step 1 examination, M2 students are required to take the CBSE in December and again in April of the M2 year. Students who fail to achieve a score which correlates with a passing score on the USMLE Step 1 exam are identified by the Office for Academic Affairs and required to meet with their College Dean to develop a study plan and to determine if additional dedicated study time to prepare for the examination is warranted.

### M3 and M4 years:

Performance on clerkship (including results of NBME Shelf examinations) and elective rotations in the M3 and M4 year is monitored by College Deans, Success Coaches, and Career Counselors. Any student required to remediate a shelf examination due to a failing grade or repeat a clerkship for academic or professional reasons is required to meet with their college dean. In addition, M3 students are encouraged to take the NBME Comprehensive Clinical Science Self-Assessment (CCSSA) during dedicated USMLE Step 2 study time to access their readiness for the exam.

### College Advising Team

The College Advising Team provides academic and career support, advising, and coaching to promote student well-being, academic achievement, and career exploration. Students are informed of the advising system and resources available for academic assistance at annual orientation for each of the academic years; information is also available on the website, the Student Success Initiatives Handbook and in the Student Handbook.

#### Academic Referral Services

Faculty with specific content expertise are also available for academic assistance, either at the request of the student or as recommended/required by a member of the College Advising Team, the Office for Academic Affairs or the Student Evaluation and Promotions Committee (SEPC). Such faculty members include:

- o Director of Academic Success
- o Director, Student Success Initiatives
- o Sleep Hygiene Specialist
- o Greenville Assessment and Learning Specialists

### Tutoring

Tutoring is provided either at the request of the student or as recommended/required by a member of the College Advising Team or Student Evaluation and Promotion Committee (SEPC). Tutors are selected from the M2, M3 or M4 classes, must be in good academic standing and are required to complete an orientation session which includes a review of effective teaching methods and expectations of the tutoring program. All tutoring requests are managed by the Student Success Coordinator. Tutoring options include individual, small group, and large group sessions.

#### Success Workshops

Students are encouraged to attend success workshops offered throughout the academic year.

## Improve Post-Graduate Outcomes For URM Undergraduate and Graduate/Professional Students

The efforts discussed in the 'Enhance Outcomes for URM Undergraduate and Graduate/Professional Students' section, which are in place to enhance the outcome for URM and all students, will lead to successful placement in graduate medical education residency training programs. To date, all students graduating from UofSC SOMG have successfully matched.

# Increase the engagement of students, faculty, staff, administrators in Equity and Inclusion

Student Advocates for Diversity, Inclusion, & Equity (SADIE) exists as a body of welcoming students, faculty, and staff committed to: advancing the integration of diversity and inclusion within the medical school's curriculum; supporting those student organizations with an emphasis on diversity; and fostering an environment for meaningful discussions centered on diversity and inclusion at UofSC School of Medicine Greenville. The students serving on this committee are utilized as a conduit for medical students of any race, creed, ethnic background, ability, sexual orientation, or gender identity to express themselves in a safe and supportive setting.

The following programs and events are led and curated by the student leaders of SADIE:

Between Two Palms is an annual event hosted on behalf of SADIE in an effort to create a safe space to discuss difficult and sometimes controversial topics in medicine. Two faculty leaders from the school of medicine and/or attending physicians from Prisma Health serve as featured panelists for the evening, and they are pitched anonymous questions from the student body. From discussions on culture and race to health disparities, this event has consistently sparked rich dialogue on some of the most important topics in medicine

Multicultural Night is an opportunity to promote and celebrate diversity through various artistic expressions, music, and food. This event allows students and faculty to share and gain insight into various cultures, yielding a stronger and more collaborative working environment.

Diversity Research: Through faculty mentors and partnerships, SADIE provides opportunities to students who are interested in research on health disparities, social and behavioral health sciences, and diversity and inclusion in medical education.

## Improve The Sense Of Inclusion Amongst All University Community Members

The UofSC School of Medicine Greenville is committed to a culture of inclusion that engages and embraces all community members. To this end, a collaborative academic/clinical approach to our teaching and learning environment fosters an inclusive place for diverse students, faculty, and staff to thrive. This approach includes intentional engagement of School of Medicine and health system leadership who are committed to creating a culture of

inclusion.

While the focus is on all community members, we have put in place leaders, initiatives, and activities designed specifically to support students who identify as underrepresented minorities, students that utilize the AMCAS fee waiver or identify as disadvantaged, come from rural communities, are first-generation college students, speak English as a second language, or choose medicine as a second career. Our commitment to inclusion is integrated throughout the policies, procedures, and practices of the Office for Student Affairs and Admissions, with ongoing effort towards continuous improvement.

Under the guidance of the Associate Dean for Institutional Culture and Inclusivity, and with the full support of the Dean and the Dean's Cabinet, in July 2019, two new positions were initiated to further this effort. Specifically, a new position for Assistant Dean for Admissions (0.4 FTE), funded by the School of Medicine, was created to support ongoing efforts towards equity, diversity, and inclusion at the UofSC School of Medicine Greenville, including establishing a strategic plan to evaluate current practices and implement adoption of best practices in the admissions process. This position and the associated strategic effort will advance current efforts within UofSC School of Medicine Greenville to continue efforts to enroll a diverse and inclusive group of academically gualified students who exhibit exceptional interpersonal and communication skills, integrity, honesty, empathy, and passion for becoming a physician. Additionally, a new position of Director of Multicultural Affairs (0.2 FTE), funded by the School of Medicine and in partnership with the health system, prioritizes a student-centered approach to building a culture that fosters and supports a commitment to diversity and inclusion. The Director of Multicultural Affairs, as an active partner with the Office for Student Affairs and Admissions, works to develop programs and services designed to enhance the recruitment of students from diverse backgrounds and life experiences who will bring their unique experiences and perspectives to the learning community. This position also includes counsel, advice and consult with students, both individually and collectively, to encourage and support an inclusive and welcoming environment.

In summary, the UofSC School of Medicine Greenville is committed to diversity and ensuring a culture of inclusion. Therefore, this commitment does not reside in an individual or office but rather a shared responsibility by all through collaboration, commitment, and accountability.

## **Quantitative Outcomes**

*Explain any surprises regarding data provided in the quantitative outcomes modules throughout this report.* 

Data is consistent with expectations.

## **Cool Stuff**

Describe innovations, happy accidents, good news, etc. that occurred within your unit not noted elsewhere in your reporting.

The UofSC SOMG has been recognized as an Apple Distinguished School for its continuous innovation in learning, teaching, and the school environment.

Four faculty and staff members, along with seven students, received Contributions to Youth awards from WoodmenLife as part of their work with HandsUp Greenville. Their innovations were featured on the local NBC news affiliate, WYFF, and in the Greenville News.

Three students received Culinary Medicine certifications, and were featured on the local NBC news affiliate, WYFF, for their participation in a program that helps educate patients on healthy eating and nutrition.

Professor Dr. Mohammed K. Khalil, DVM PhD MSEd, received the 2019 Alpha Omega Alpha Robert J. Glaser Distinguished Teacher Award.

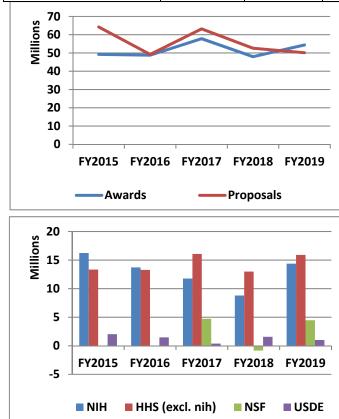

Founding Dean of the medical school, Dr. Jerry Youkey, was awarded the Order of the Palmetto by South Carolina Representatives Bruce Bannister and C. Dan Adams. The Order of the Palmetto is the highest civilian honor awarded by the Governor of South Carolina to persons who make contributions of statewide significance.
